

WELCOME

RESERVOIR STREET IMPROVEMENT PROJECT

The City of Harrisonburg welcomes you to tonight's Design Public Information Meeting for the Reservoir Street Improvement Project, from its intersection with University Boulevard to the South City Limits.

PURPOSE OF TONIGHT'S MEETING

Provide additional public opportunity to:

- Meet the Project Team
- Review Preliminary Design Plans
- Ask questions – get answers!
- Provide oral and written comments

Please remember to complete your comment form and leave it in the deposit box provided. For your convenience, completed comment forms may also be mailed by July 7, 2008.

PURPOSE OF PROJECT

With the improvements being considered for this corridor the goal is to promote a better transportation network for the residents of the City of Harrisonburg. To accomplish this, the project needs are:

- To develop a functional and cost effective design that meets the goals of the community.
- To develop a design that safely accommodates future traffic volumes.
- Provide safe and attractive pedestrian and bicycle access throughout the corridor.
- Minimize impacts during construction to the traveling public, surrounding neighborhoods, businesses, and utilities.
